**TECHNICAL QUALIFICATIONS**

Sean Harrison's company, Parish Broadband LLC, has operated since 2017 primarily as a fixed wireless broadband service provider that also offers, on a smaller scale, a fiber optic network. Sean has worked in the ISP and network engineering industry for 20 years, first as the Network Engineer at the Archdiocese of New Orleans until he started Southern Network Services (n/k/a Parish Broadband).

Sean has spliced and worked on fiber optic networks for several years for clients including but not limited to Crown Castle, Swyft, Harbor Communications (n/k/a C-Spire), New Orleans City Park, and other smaller entities.

Sean also designs, engineers, and oversees the build for Mayberry Communities (My Simple ISP, Inc.), a residential fiber internet service provider in Colorado Springs, CO. Mayberry Communities currently provides service to 200 subscribers with an expected 4,000-5,000 fiber subscribers by 2030.
