Grant of this petition will further the public interest by expanding the availability of competitive telecommunications services in the state. In addition, intrastate offering of these services is in the public interest because the services will provide customers with access to new technologies and service choices and can permit customers to achieve increased efficiencies and cost savings. Petitioner's entry into the telecommunications services market thereby will enhance the telecommunications infrastructure in the state and will facilitate economic development.

In particular, the public will benefit directly through the use of the competitive services to be offered by petitioner, and indirectly because the presence of petitioner in this market will increase the incentives for other providers to operate more efficiently, offer more innovative services, reduce their prices, and improve their quality of service.

Wherefore, Petitioner requests that the Commission grant its petition for authority to Operate as a VoIP Reseller within the State of Louisiana.

Respectfully Submitted:
