RULES AND REGULATIONS

Rule No. 1 SHIPPER TO SPECIFY EQUIPMENT

In ordering equipment shipper must specify commodity to be transported and capacity of unit or units needed. The size of the unit or combination of units ordered will be used except in case a larger unit is furnished at the convenience of the carrier; rate per hour will be that of the unit ordered. If the load tendered to the carrier by the shipper is greater than that which will be transported by the unit ordered, charges will be based upon equipment used. (EXCEPTION: In no case will the minimum weight provisions herein required loading of vehicles in excess of weight restrictions provided by Louisiana State Law.)

Rule No. 2 DISPOSITIONS OF TIME FRACTIONS

Except as otherwise provided herein, fractions of less than ½ hour will be considered as 1 ½ hour. Fractions of ½ or over will be considered as one full hour.

Rule No. 3 LOADING AND UNLOADING

(a) Carrier will not be responsible for products being pumped or unloaded into the wrong storage, through no fault of the carrier.

(b) Carrier will not be responsible for delivery of contaminating products when such delivery is made through no fault of the carrier.

(c) Shipper is to furnish all facilities for loading, such as laying pipeline and connections to a point where products can be loaded without getting on hazardous roads,

(d) Consignee shall furnish proper facilities for unloading.

Rule No. 4 METHOD OF COMPUTING TIME

Time will be computed commencing with departure of equipment from Carrier's nearest terminal to point of origin, thence to destination of shipment, and return to original terminal. All freight bills shall show date and time of the beginning and ending of such time upon which charges are based. No charges will be made for the time during which service is stopped because of mechanical failure of carrier's equipment, rest stops of carrier's employees, or for other reasons which the carrier is responsible.

Rule No. 5 OFF HIGHWAY OPERATIONS OR IMPASSABLE ACCESS ROADS

When either the loading or the unloading point is off highway, or access road to either loading or unloading point is impassible, making it impossible to operate the motor vehicle under its own power, the carrier may have the vehicle towed to either the loading or unloading point. The cost of having the vehicle towed will be charged to the party responsible for paying the freight.

Rule No. 6 CHARGE FOR ADDITIONAL HOSE

When additional hose, in excess of 100 feet in length, is required or requested by the shipper for loading or unloading a shipment, carrier shall furnish such hose and a charge of 90 cents per foot for each twenty-four hours or fraction thereof.

If it is necessary to send a service truck to transport additional hose for loading or unloading of shipment, a charge of \$16.00 for a ½ ton pickup, \$21.00 for a ¼ ton pickup per hour or fractional part thereof will be made, which, will be additional to all other charges, and which will include service of the driver, if needed, in assisting in the stringing, connecting, disconnecting and picking up of the hose. Where additional hose is required or requested, if such hose is available, the carrier will furnish it from his terminal located nearest to the point of loading or unloading. If extra hose is requested by the shipper at time order placed for carrier's equipment to load, carrier will make effort to transport hose on equipment ordered for loading. (See Rule No 2, Rule pertaining to Disposition of Time Fractions.)

Rule No. 7 TOLL CHARGES

The rates published herein do not include toll charges for use of bridges, tunnels, scales or roads. Where the shortest available regularly traveled highway route, origin to destination, requires the use of bridges, tunnels or roads and where tolls are assessed, the toll charges shall be paid by the carrier and charged back to the shipper or other party paying freight charges and shall be in addition to all other lawful charges applicable.

Rule No. 8 COLLECTION OF CHARGES

Carrier shall not deliver or relinquish possession of any property transported by it until all tariff rates and charges thereon have been paid in cash, by money order, or by check acceptable to carrier. When acceptable credit arrangements are made before movement of shipment or at time of delivery, credit may be extended for no more than thirty (30) days from date of presentation of freight bill to shipper or consignee. Nothing herein shall limit the right of the carrier to require at the time, or before shipment, the partial or full prepayment of freight charges or the guarantee thereof. If, upon inspection, it is ascertained that the articles shipped are not those described in the bill of lading, the tariff charges must be paid upon the article actually transported. For the purpose of this item, the date of presentation of freight bill shall be considered as the date postmarked on the envelope. The freight bill shall be considered as paid

on the date postmarked on the envelope. After thirty (30) days from the date of the presentation of freight bill, carrier shall charge interest thereon at the rate of eighteen (18%) percent per annum.

Rule No. 9

WATER MOVEMENT

When vacuum units are to be placed on barges or other waterway vessels for movement to water locations, a charge of \$3.00 per hour for each vehicle is applicable. Rate will be computed from the time the vacuum unit is loaded unto the barge at the loading dock until return to the loading dock and placed on dry land for highway travel. This charge will be in addition to all other applicable rates and charges.

Rule No. 10

MINIMUM CHARGE

A two (2) hour Minimum Charge is applicable on all shipments.

Rule No 11

TRANSPORTATION RATES

The hourly rates for units are provided below. All additional charges noted in this tariff shall apply to any shipment

- Vacuum \$100 - \$150 per hour

Prices will be determined within a range. Subject to price negotiated with customer, based on current market conditions, customer history and length of agreement

SECTION 1

APPLICATION OF FUEL SURCHARGE
